RODNEY G. MCDONALD
 PRIMARY EXAMINER

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-24 are allowable over the prior art of record because the prior art of record does not teach the claimed subject matter including wherein the domed bottom includes a domed region having a radius of curvature greater than a radius of the main body.

Claims 25, 27, 28, 29 are allowable over the prior art of record because the prior art of record does not teach the claimed subject matter including wherein the first radius of curvature of the domed region is greater than a radius of the main body.

Claims 30 and 31 are allowable over the prior art of record because the prior art of record does not teach the claims subject matter including wherein the providing of the transfer includes providing the transfer chamber with a domed bottom that includes a domed region having a radius of curvature greater than a radius of the main body.

The closest prior art to Bourel et al. (U.S. Pat. 4,790,750) fails to teach a domed bottom where the domed bottom includes a domed region having a radius of curvature greater than a radius of the main body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
